

# MEDICAL MUDDLE 1

In hospital, you'll meet lots of different people, doing lots of different jobs, and saying lots of different words you might not have heard before, like pneumonoultramicroscopicsilicovolcanoconiosis? That's a lung disease, by the way. And also a long disease. Can you unscramble the nonsense below to discover various people and objects you might find in a hospital?

See if you can beat the time it took me: 0.0004 seconds.
