

## MEDICAL MUDDLE 2

When you've untangled the terms on the previous page, see if you can match them to their meanings.

Answers are at the bottom of the page. **NO cheating!**

OK, fine, only a little bit of cheating.

**A.** A food expert who teaches you the best kind of meals and snacks to help you get better. Even if they refuse to count chocolate as a type of fruit.

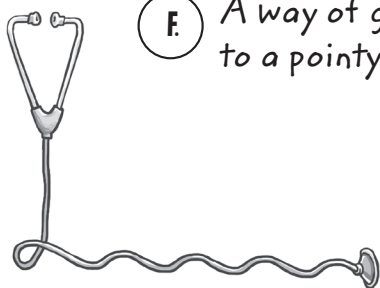

**B.** This is what your doctor uses to listen to your lungs, heart and intestines. A bit like headphones, but with the most boring music in the world.

**C.** A special kind of doctor who does special operations to fix problems inside your body. They are even better at sewing than my Granny!

**D.** The job I do! We help people stay healthy and take care of them when they're sick or hurt. We are famous for our excellent handwriting. OK, maybe not.

**E.** Someone who speeds off in an ambulance and gives help to people in emergencies. And I'm definitely not jealous that they get to drive a car with flashing lights and a siren...

**F.** A way of giving you medication thanks to a pointy little needle on the end.
