

## MAKE YOUR OWN MEDICAL BADGE

Before you get your certificate, think about what kind of doctor you might want to be, and create your own medical badge! I'm a **paediatrician**, which is the best kind because you get to look after children. Other kinds include **neurologists** (who study your super-smart brain), **radiologists** (who use clever cameras to look inside your body) and **anaesthetists** (who use special medicines to send you into a nice, safe sleep during operations so you don't feel a thing. Please note that **bum doctor** is not a real job.

add a drawing of yourself below, especially if you are as good looking as me

LILYDALE GENERAL HOSPITAL

JOB TITLE

## CERTIFICATE

Congratulations! You're now a fully qualified doctor\* and it's time to fill out your certificate! Use the space on the next page to write in your name and what kind of doctor you might want to be, and get badged up!. Don't forget to print it out and stick it next to your hospital bed!

\*Kind of
